

MineCrafters Challenge Course

Create a challenge course using 1-2 items from each column for another team to complete. Make it a challenge but NOT impossible. Test often to ensure that all challenges can be completed. You WILL be challenged to show that it can be completed.

STAY in CREATIVE mode when creating. Testing/Running may switch to SURVIVAL PEACEFUL MODE.

If not on a computer, you may choose fuse beads or read a book

GENERAL INFORMATION

Create START and FINISH platforms. Make it OBVIOUS that it is the start or finish for each section by using red/white bricks.

Create signs that say which challenge it is, as well as ALL directions for challenge.

Add a bed or pressure plate in areas where contestant might die.

Provide a chest at the end of each section that is an ingredient for your END CHALLENGE (see below)

END CHALLENGE

Mystery Recipe Maze

This is the final section of your challenge. Place signs throughout maze to indicate which position the items that were collected go into the crafting table or furnace. At the end of the maze, provide furnace or crafting table for contestant to make item.

CHOOSE 1- 2 PARKOUR ITEMS

Parkour

Create jumps from platform to platform to get from one space to another. Use corner jumps, S jumps, ladder jumps and more. Add a chest with a mystery recipe item at the end.

Indiana Jones

Make a large room and put lots of lava at the bottom. Now place a bunch of floating blocks, which leads to a small alcove. The aim is that the player must carefully jump on the blocks to get to the alcove. Any blocks sitting next to the wall can be controlled with Sticky Pistons to extend and then go back into the wall, to time jumps. Add a chest with a mystery recipe item at the end.

Run Fast

This trap takes advantage of the very fast speed you can achieve by sprint-jumping in a two-block high passageway. First of all, build a two-block tall passageway of whatever length you want. Put a pressure plate at the beginning of the hallway, and connect it to pistons that will retract the floor. Put in a delay, so that the floor will retract just after a sprint-jumping player gets through. If they aren't fast enough...add a pressure plate or bed for them to re-spawn. Add a chest with a mystery recipe item at the end.

CHOOSE 1-2 RED STONE ITEMS

The Cakes Are A Lie

Place 3 cakes in a line over BUD switches for the player to eat. One of the cakes, when eaten, will push up a small chest area with a mystery recipe item. The remaining 2 will send the player into water or lava pit.

Be smart...

Put a hard question to solve with 3 answers. To do so, put 3 levers and 3 signs with answers. The right answer will open a path to the chest with the Mystery Recipe item.. Others will throw lava into the room. with dispensers with Buckets that can place lava, then suck it back up.

Minecart Mania

Make a huge underground minecart roller coaster and give them a bow. Add some wood buttons. The aim is to shoot all the buttons and get them all to activate, turning on an And gate that changes the track to the next room where the chest with the Mystery Recipe item.

Correct answer gets you through

Create a maze. At each T in the path add a question and arrows pointing in both direction with a right and wrong answer. Right answer gets you further through the maze, where a wrong answer finds a dead end. Add a chest with a mystery recipe item at the end.

Combination Lock or Password

Contestant must successfully enter correct combination (pistons) or password (paper from chest) to enter through door to the chest with the Mystery Recipe Item

CHOOSE 1 MAZE WITH A TWIST

Just A-Mazing

Create a maze to wander around narrow paths aimlessly until the find a door. Add water traps for dead ends. Create maze with glass blocks to make it more difficult. Create underground, in the dark, way up high, several levels, or in a pattern

Elevator Shaft of DOOM

Create an elevator shaft to get up, but add flames sporadically through elevator shaft.

Water Slide

Create a waterslide to go from an upper level to a lower level. Good to use as a starting place.

Crazy Cube Maze

Create a large multi-story cube maze where contestants enter from 1 side and have to get through maze find a chest with a mystery recipe item and then get to the end of the maze.
